

# **Chemical Engineering Seminars – MT 2006**

***Week 1: Tuesday 10 October, 4:15 pm  
Lecture Room 2, Thom Building, Engineering Science***

## **“Research and Development of Nutritional Products”**

**Dr Henglong Hu**

Principal Scientist, GlaxoSmithKline Nutritional Healthcare R&D

### **Abstract**

The talk will provide an overview on the research and development of nutritional products, and use one popular brand to illustrate the sciences behind product development and manufacturing, e.g. formulation, production, and claims support etc. A few examples of technical challenges for food industry will also be discussed.

### **Bio-sketch**

**Dr Henglong Hu** is Principal Scientist, GlaxoSmithKline Nutritional Healthcare R&D.
