

Chemical Engineering Seminars – MT 2006

***Week 7: Tuesday 21 November, 4:15 pm
Lecture Room 2, Thom Building, Engineering Science***

Chemical Engineering DPhil Student Showcase

Weiqi Wang

"Modelling of cell apoptosis using HFPN"

Mahsanam Mirzaei

" Experimental and Numerical Investigation of Dynamic Effects in Capillary Pressure-Saturations Relationships for Two-Phase Flow in 3D Heterogeneous Porous Media"

Constantinos Hadjistassou

"Perplexities of the Brain: Oxygen Transport and fMRI"

Tim Bowker

"Thrombosis in Cerebral Aneurysms"
