

Oxford University MATLAB Installation

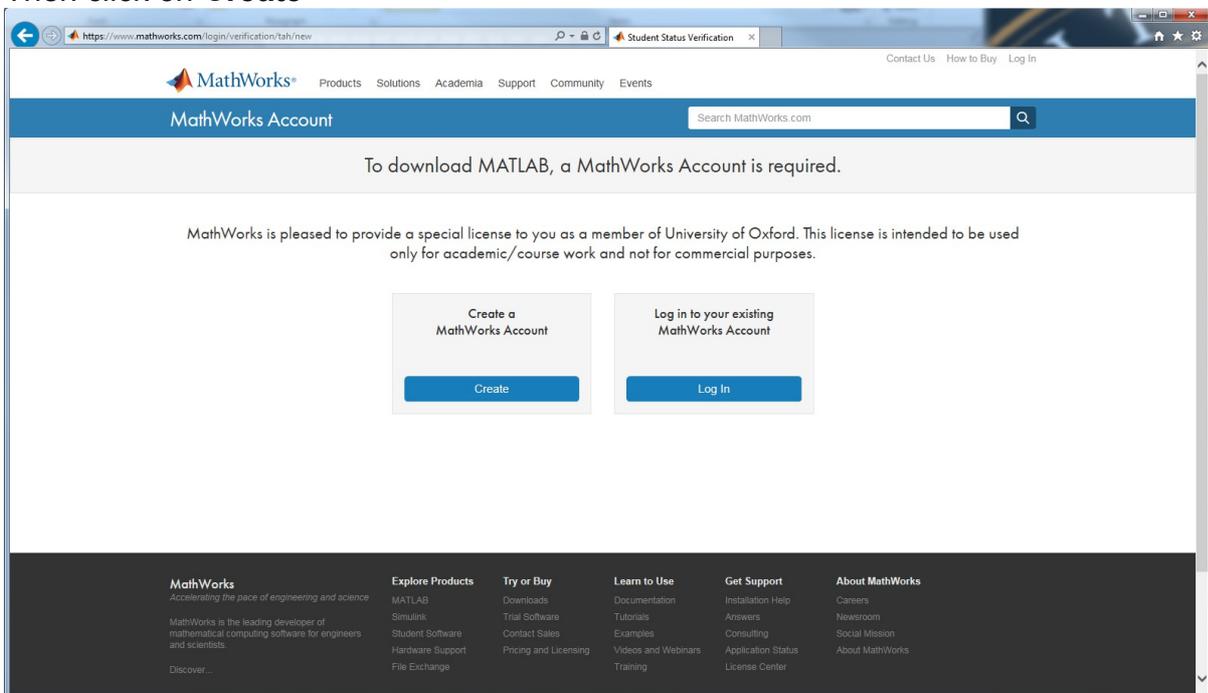

To install MATLAB onto your computer, go to the web page

<https://www.mathworks.com/login/identity/university?entityId=https://registry.shibboleth.ox.ac.uk/idp>

Use your University of Oxford, single sign-on username and password.

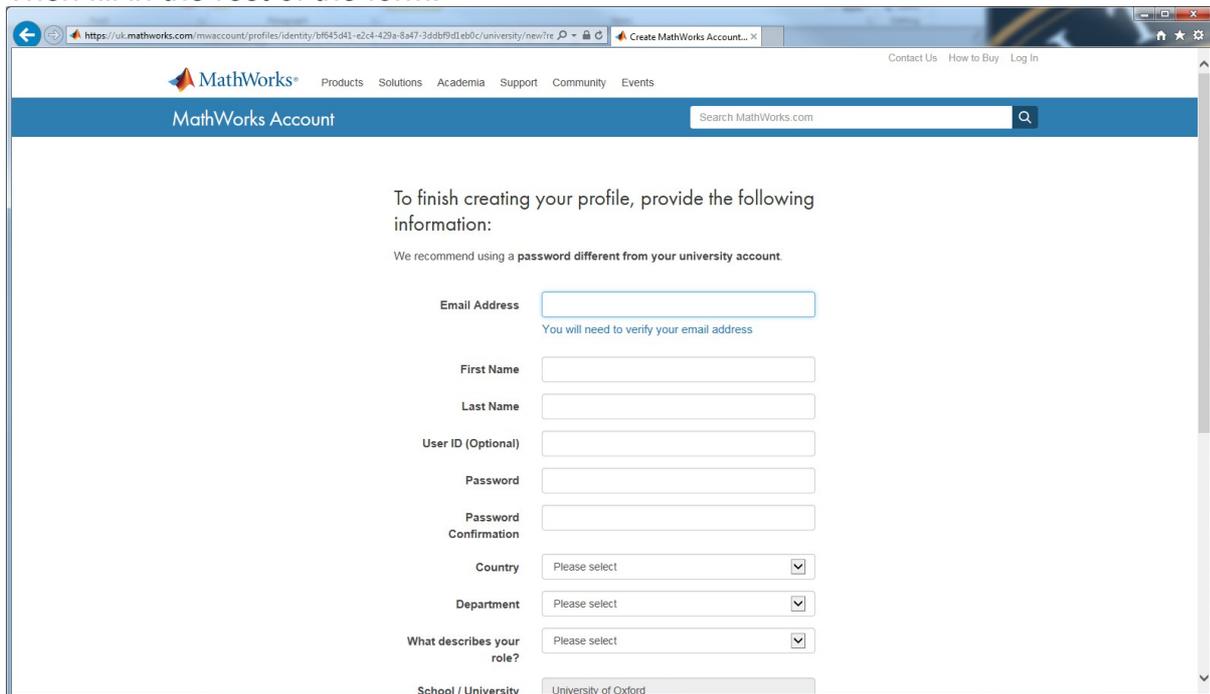

Then click on **Create**

To register to use MATLAB, you need to use your Oxford University Email address. The address must end with ox.ac.uk.

Then fill in the rest of the form.

The screenshot shows a web browser window with the URL <https://uk.mathworks.com/mwaccount/profiles/identity/bf645d41-e2c4-429a-8a47-3d4db9d1eb0c/university/new?re>. The page title is "MathWorks Account" and the navigation bar includes "Products", "Solutions", "Academia", "Support", "Community", and "Events". The main content area contains the following text and form fields:

To finish creating your profile, provide the following information:

We recommend using a **password different from your university account**.

Email Address
You will need to verify your email address

First Name

Last Name

User ID (Optional)

Password

Password Confirmation

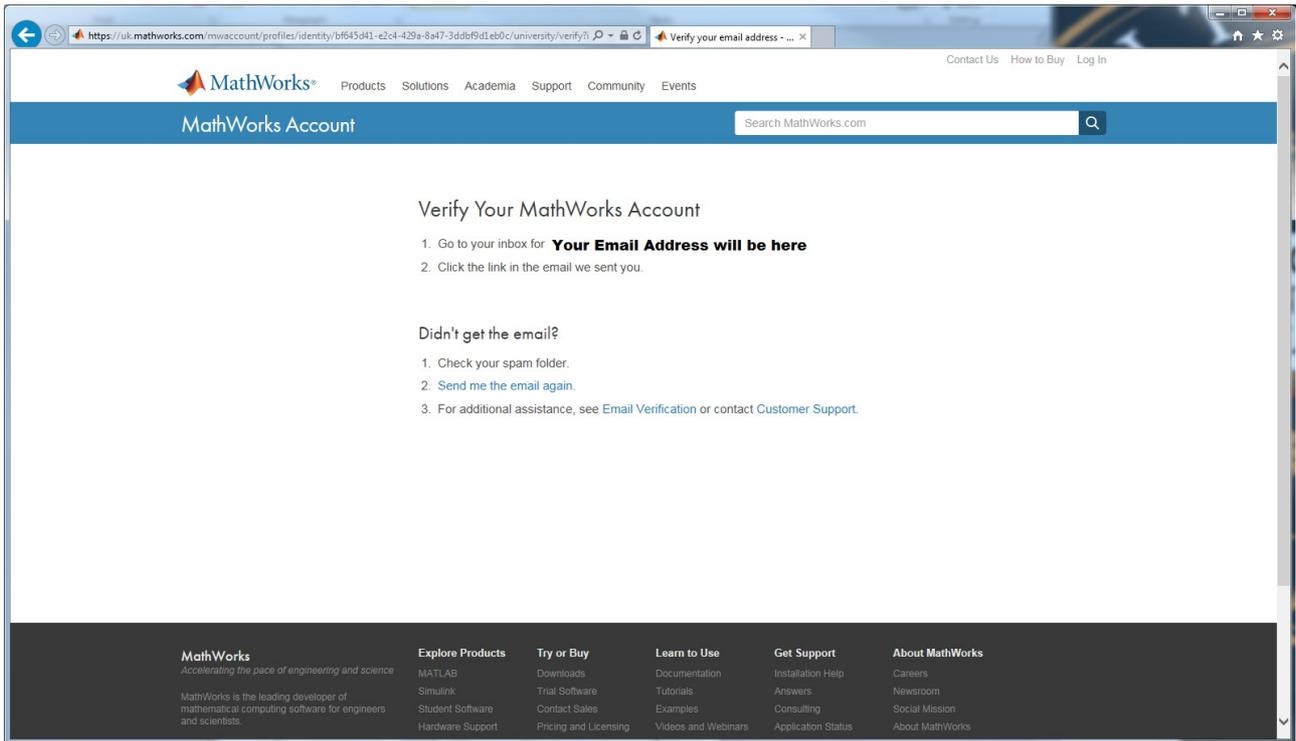

Country

Department

What describes your role?

School / University

The system will then send you an Email

Click on the link in the Email

Thank you for registering with MathWorks!

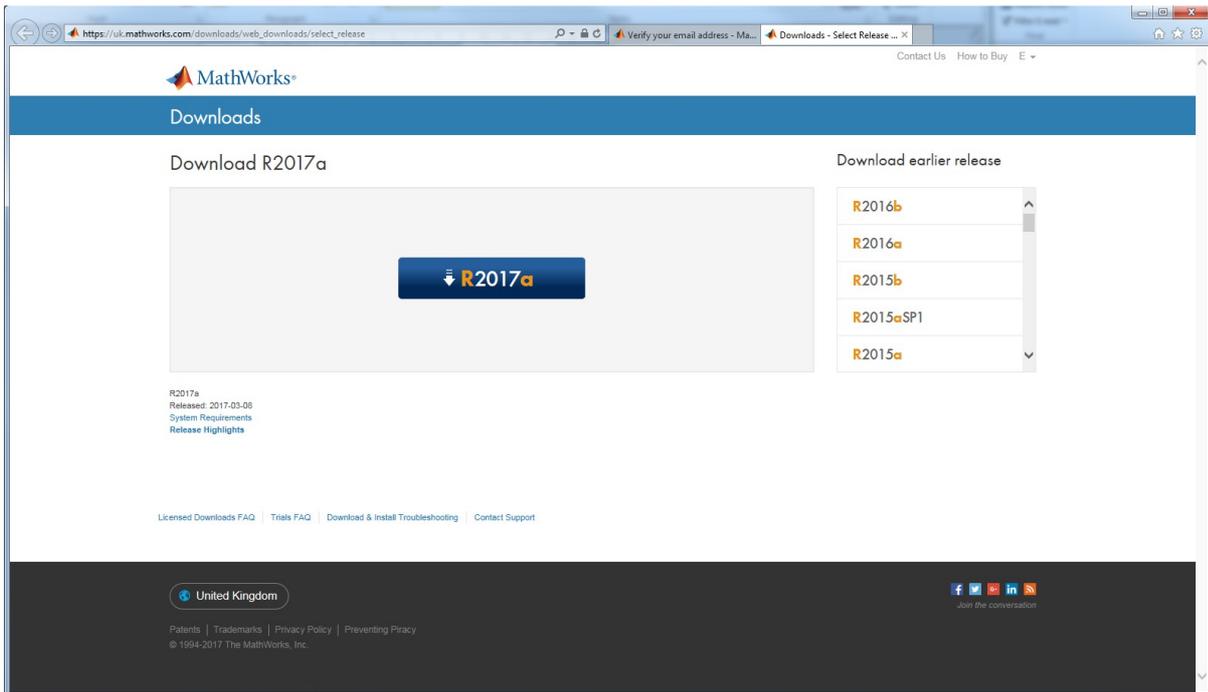

To complete the registration process, verify your email address by clicking this link:

[Verify your email](#)

Sincerely,
MathWorks Customer Service Team

[Privacy policy](#)

This will then take you directly to the MATLAB download page.

1. MAC user have a look at page 5 before selecting a release.
2. When you run the installer, you will be asked to select an an **Installation Method**. Select **Log in** with a MathWorks Account.
3. Later, you will be asked enter an **Email address** and **Password**. Use the same **Email address** and **Password** that you used to create your account on the MathWorks web site.
4. When asked to **Select a license**, Choose the license with the **Individual** Label.
5. When ask to select the products, there are over 80 additional toolboxes available to install. If you are using a wireless connection, or standard broadband network connection at home, it will take many hours to download all the toolboxes. In these cases, select just MATLAB and the toolboxes you need. You can run the installer again later and add additional toolboxes.

If you have any problems or queries, have a look at the MATLAB Frequently Asked Questions page
<http://users.ox.ac.uk/~engs1643/matlab-faq.html>

Which release of MATLAB to download for my MAC?

If you are using the MAC operating system OSX 10.11 or above, then you can download and install MATLAB release R2018a.

To find which version of OSX you are using.

On the Mac, Click on the apple in the far top left.

Select **About this MAC**

If you have an older version of the MAC operating system, you will have to download an older release of MATLAB. See the table below.

MAC Operating System		MATLAB Release to Use
High Sierra	macOS 10.13	R2018a
Sierra	macOS 10.12	R2018a
El Capitan	OS X 10.11	R2018a
Yosemite	OS X 10.10	R2017a
Mavericks	OS X 10.9.5	R2015b
	OS X 10.9	R2014b
Mountain Lion	OS X 10.8	R2014b
Lion	OS X 10.7.4 & above	R2014b
	OS X 10.7	R2012a or R2012b
Snow Leopard	OS X 10.6.4 & above	R2012a or R2012b
	OS X 10.6.x	R2010b
Leopard	OS X 10.5.8 & above	R2010b
	OS X 10.5.5 & above	R2010a
	OS X 10.5.x	R2008b

To download an older release of MATLAB is very similar to an ordinary download. On the Downloads select the release you need.

Eric Peasley (Eric.Peasley@eng.ox.ac.uk) August 2018
